Period fo	The MAILING DATE of this communication app or Reply	pears on the cover sheet with the c	orrespondence address			
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.  - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.  - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.  - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### **DETAILED ACTION**

## Claim Objections

Claim 129 is objected to because of the following informalities: The claim appears to be incomplete (see the last line). Appropriate correction is required.

## Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 78-133 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The disclosure of the present application does not adequately set forth a system and a method obtaining overlay measurements. The specification does not disclose the claimed subject of the independent claims 78,101, 107,116, and 129 such as "the first and second sets of gratings are on the wafer with an asymmetrical alignment, and determining misalignment between the first and second sets of gratings (which are asymmetrically aligned on the wafer). Instead the specification merely teaches, in the embodiment of Fig. 5 (a & b), interlaced periodic structure 13 (51, 53) with the periodic structure 15, which "as shown in Fig. 5b has a line-width L3 and is centered between ... lines 51 and ... lines 53" (paragraph 39). Further, in the same paragraph,

the applicants disclose "The misregistration between the first layer 31 and the second layer 33 is equal to the misregistration  $\epsilon$  between the first periodic structure 13 and the second periodic structure 15." The following formula for the misregistration ( $\epsilon$ ) is just a condition for the unit cell to be either "most symmetric" or "most asymmetric". The application discloses the method of measuring misregistration between the interlaced gratings, and then determining whether the unit cell is "most symmetric" or "most asymmetric". The language of the claims of the present application states that the misalignment between the first and second sets of the first and second sets of gratings (that are asymmetrically aligned) is being measured, which appears to be in disagreement with the specification.

# Response to Arguments

Applicant's arguments filed 6/17/2008 have been fully considered but they are not persuasive. Deleting the limitations of the independent claims does not overcome the 112<sup>th</sup> rejection above.

#### Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Page 4

Art Unit: 2877

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to L. G. Lauchman whose telephone number is (571) 272-2418. The examiner's normal work schedule is 8:00am to 4:30pm (EST), Monday through Friday. If attempts to reach examiner by the telephone are unsuccessful, the examiner's supervisor Gregory J. Toatley, Jr. can be reached on (571) 272-2059, ext. 77.

The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
